experience. We believe that the design cannot only be taught in the classroom and should be based on a practical and experience-based learning. He expressed his strong desire that the graduates of WUD will have deep knowledge within their fields and also excel in problem solving skills, will be aware of the new trends and technology along with societal context of their chosen profession, will function effectively in teams, will have entrepreneurial abilities and above all, be life - long learners. The suggestive course related and mythological changes that are been brought into the curricula were presented to take feedback from all the board members.

With brief introductory remarks, the Chairperson opened the forum for discussion on the following agenda:

BoS/SoD 2.1) To introduce the changes in curricula, detailed syllabi along with the scheme of evaluation for B.Des (Product Design, Transportation Design and Interior Design) and M.Des (Industrial Design, Transportation Design & Interior and Retail Design) courses to BoS and recommend the same to the BoS for approval.

BoS/SoD 2.2) To introduce new programs for B.Des and M.Des, their curricula, detailed syllabi to BoS and recommend the same to the BoS for approval.

1. B.Des (Computer Science & Design)
2. M.Des (International Fashion Business)
3. M.Des (User Experience & Interaction Design)

BoS/SoD 2.3) To introduce the Student Handbook on Academic Regulations, Rules and Procedures governing SoD and recommend the same to the BoS for approval.

Following points were suggested by the external expert Mr. Amit Sharma. He suggested some qualities and skills which SoD should focus on.

1. The students should impart with importance of self-belief. They need to be pushed into real world situation to face the
2. The most importance two things which are missing in students which SoD should focus on imbibing into students are
 - a. Process of design
 - b. Process of communication

Students should not be encouraged to do research on internet and take direct inspiration from internet. They should be directed towards and made understand the process of design which is – Research, User understanding, Ideation, Refinement and Making.

Students should have the ability tell the story of their design and design process. They have to be good communicators. This can be done through making them write an abstract for their each and every project and frequent feedback sessions.
3. Students of SoD should have three major qualities which is required in a designer.
 - a. Sense of Ownership
 - b. Sense of Responsibility
 - c. Sense of Empathy

External expert then gave suggestions through which SoD can imbibe these skills, thinking and qualities in students.

4. The courses should go beyond the time slot given to the course. Students should imbibe habit of exploring the course beyond the time of the course.
5. SoD should collaborate with 10 industries which are there within the radius of 10km from WUD. This can give students exposure to real life design process and manufacturing. SoD also may benefit from this collaboration by getting live projects from these industries.

$$SGPA = \frac{U_1 G_1 + U_2 G_2 + U_3 G_3 + \dots}{U_1 + U_2 + U_3 + \dots}$$

Where U1, U2, U3 denote credits associated with courses taken by the Student and G1, G2, G3 are the Grade Point of the letter grades awarded in the respective Course. An example of these calculations is given below:

Course code	Associated Course Credits	Grade Award	Earned Credits	Grade Point	Point Secured
(1)	(2)	(3)	(4)	(5)	(4)x(5)= (6)
MSS101	5	C+	5	6	30

$$SGPA = \frac{\text{Points secured in the semester } 135}{\text{Associated Credit Units in the Semester } 24} = 5.62$$

CGPA is not applicable in first semester

Earned Units in the semester (total of column 4) = 27

Cumulative associated credit Units (in previous semesters 24 and current semester 30)= 54.

Points Secured in II semester (total of column 6) = 202

$$\text{SGPA} = \frac{\text{Points secured in II semester} \quad 202}{\text{Associated Credit Units of courses in II semester} \quad 30} = 6.73$$

$$\text{CGPA} = \frac{\text{Cumulative points secured in all passed course in I \& II Sem} \quad 337}{\text{Cumulative Associated Credit Units in I \& II semesters} \quad 54} = 6.24$$

- (c) Final Grade Card will indicate Cumulative Grade Point Average (CGPA) and shall be based only on Grade Points obtained in courses for which the student had registered.
- (d) Conversion from Grade Point Averages to percentages of marks do not have rigor or rationale. However, an approximate and indicative equivalence between CGPA and percentage of marks can be assessed by simple mathematical calculation i.e. CGPA multiplied by 10.
- (e) The successful candidates shall be placed in Divisions as below:

CGPA

6.5 but less than 8.50
5.0 but less than 6.50

World University of Design intends to achieve optimum performance in every walk of its functioning and faculty members are one of the major stake holders in achieving our objectives. In order to maximize the potential of its faculty members, the university has introduced a Comprehensive Performance Evaluation System (CPES). CPES is a 360⁰ performance evaluation system which involves self evaluation, student feedback and evaluation by the supervising officers. The broad categories in which faculty members are evaluated are - Teaching, Research, Service and other contributions.

The performance review of the faculty members is conducted on annual basis. The table on the following pages provides template for the evaluation roadmap. The faculty members will provide details of their teaching, research and service contributions in the academic year covering the review period by filling the information on the template and by completing the self-appraisal section of the performance appraisal form. In each broad category of teaching, research, service and other contributions, they will rate their own performance as per the guidelines provided. The concerned Dean will provide his/her evaluation taking into account the performance of the faculty member in comparison to their peers in the department and the school respectively.

Evaluation Timeline:

September 4: Faculty members submit the annual performance data to the Dean for review

September 15: HOD/Dean submits his/her evaluation to the Vice Chancellor

experience. We believe that the design cannot only be taught in the classroom and should be based on a practical and experience-based learning. He expressed his strong desire that the graduates of WUD will have deep knowledge within their fields and also excel in problem solving skills, will be aware of the new trends and technology along with societal context of their chosen profession, will function effectively in teams, will have entrepreneurial abilities and above all, be life - long learners. The suggestive course related and mythological changes that are been brought into the curricula were presented to take feedback from all the board members.

With brief introductory remarks, the Chairperson opened the forum for discussion on the following agenda:

BoS/SoD 2.1) To introduce the changes in curricula, detailed syllabi along with the scheme of evaluation for B.Des (Product Design, Transportation Design and Interior Design) and M.Des (Industrial Design, Transportation Design & Interior and Retail Design) courses to BoS and recommend the same to the BoS for approval.

BoS/SoD 2.2) To introduce new programs for B.Des and M.Des, their curricula, detailed syllabi to BoS and recommend the same to the BoS for approval.

1. B.Des (Computer Science & Design)
2. M.Des (International Fashion Business)
3. M.Des (User Experience & Interaction Design)

BoS/SoD 2.3) To introduce the Student Handbook on Academic Regulations, Rules and Procedures governing SoD and recommend the same to the BoS for approval.

Following points were suggested by the external expert Mr. Amit Sharma.

He suggested some qualities and skills which SoD should focus on.

1. The students should impart with importance of self-belief. They need to be pushed into real world situation to face the
2. The most importance two things which are missing in students which SoD should focus on imbibing into students are
 - a. Process of design
 - b. Process of communication

Students should not be encouraged to do research on internet and take direct inspiration from internet. They should be directed towards and made understand the process of design which is – Research, User understanding, Ideation, Refinement and Making.

Students should have the ability tell the story of their design and design process. They have to be good communicators. This can be done through making them write an abstract for their each and every project and frequent feedback sessions.

3. Students of SoD should have three major qualities which is required in a designer.
 - a. Sense of Ownership
 - b. Sense of Responsibility
 - c. Sense of Empathy

External expert then gave suggestions through which SoD can imbibe these skills, thinking and qualities in students.

4. The courses should go beyond the time slot given to the course. Students should imbibe habit of exploring the course beyond the time of the course.
5. SoD should collaborate with 10 industries which are there within the radius of 10km from WUD. This can give students exposure to real life design process and manufacturing. SoD also may benefit from this collaboration by getting live projects from these industries.

6. The design should reach out of their department. SoD should start reaching out to people to get feedback for each step of design process, starting with their own campus and gradually reaching to nearby universities for feedback. The feedback can empower students with self-belief and confidence for their work. It also wider their acceptance for constructive criticisms and new ideas. Each display should have identification of student and the whole session should be well documented.
7. Students should not be forced to give submission on the basis of timelines. They should be given time according to their ability and skill to complete a task. They should be inspired to think and then do. They should not be forced into doing without thinking.

Mr. Amit Sharma appreciated some of the changes which have been brought into the curricula which are based on the students' feedback, experiences of faculties and industry inputs. To further strengthen his collaboration with SoD, he suggested some activities which can be jointly done with SoD faculties and students. He suggested frequent webinars with various industry experts to take feedback for teaching methodology and students work. He also suggested doing ice breaking workshops which are not related to design.

After detailed deliberations, following decisions were taken:

1. The curricula, detailed syllabi with the scheme of evaluation for all programs of SoD were finalized.
2. The new programs, their curricula and syllabi are approved and finalized by BoS.
3. The Student Handbook on Academic Regulations, Rules and Procedures governing the programmes of SoD were finalized.
